## NPSOT Chapters

When you join the Native Plant Society of Texas, you join a statewide organization with over 2,000 members. Most members also choose to join one of our 31 chapters, at no additional cost. These chapters provide educational programs and activities on native Texas plants and related topics that are specific to their area of the state.

We encourage you to join a chapter. When you do, a portion of your membership dues is sent to the chapter to help pay chapter expenses.

If you don't live near a chapter or for any reason don't want to join a chapter, you may choose to be a member-at-large. All members regardless of chapter affiliation receive the quarterly state newsletter, ***NPSOT News***.

Please indicate your choice on the membership application – one of these chapters or member-at-large:
