2025 Fall Symposium – Hybrid Event
“Teach for the Future!”
October 3-5
Salado Middle School
Salado, TX**

TEACH FOR THE FUTURE

**NATIVE PLANT SOCIETY OF TEXAS
FALL SYMPOSIUM SALADO 2025**

If you and your business are native plant champions – sponsor our event!

The Native Plant Society of Texas is a rapidly growing state-wide organization with over 35 chapters and more than 5,500 members who *promote conservation, research and utilization of native plants and plant habitats of Texas through education, outreach, and example.*

The Society has assembled a remarkable schedule of recognized experts to speak about the rich heritage of the plant communities within the Northern Blackland Prairies and Limestone Cut Plain ecoregions. The symposium is open to anyone interested in learning how to restore and preserve our state’s rich and diverse native plant communities. Highlights include plenary and concurrent sessions, workshops, field trips, a silent auction to raise money for scholarships, vendors and exhibitors, and an awards dinner and ceremony honoring outstanding achievements in the field of Texas native plants.

NPSOT Symposium 2025 will draw a diverse audience of about 300 academics, professionals, conservationists, educators, and landscaping experts from across Texas. It should not be missed!

Make the most of this opportunity!

Thank you for choosing to support the Native Plant Society of Texas and the native plant habitats of Texas. The conservation and education goals of the Native Plant Society of Texas benefit us all, but we can’t do it without the generous support of friends like you. As a leader in this community, your support is truly needed – and appreciated – to make this event a success. We hope that you will join us and be a part of this year’s event.
