

THE TEXAS CONSTELLATION IS GROWING

Become a Constellation Partner 2026 -2027

Historic cemeteries are often the oldest green spaces in our cities and rural counties.

They contain buried treasures of native seeds waiting for their day in the sun.

The Constellation of Living Memorials began as a two-year pilot program that restored six neglected cemeteries in Dallas County. It has since grown into a scalable, statewide model in partnership with Native Plant Society of Texas and Texas A & M AgriLife Extension. CLM is currently adding new cemeteries!

What Cemeteries in the Constellation Receive:

- **Restoration framework and ecological guidance**
- **Best practices guide**
- **Volunteer onboarding materials**
- **Eligibility for grant support**
- **Inclusion in the Constellation Map**
- **Feature stories and media exposure**
- **CLM Symposium participation**

A limited number of grant-supported opportunities are available.

First come. First served.
